

Dear friends,

I thank God for starting Discipleship Training School here in Maasailand. God has done a huge favor to purpose for us all to know Him, to have close intimacy with Him and to let Him be known by others through this school. Subsequently to create a close relationship as well among ourselves and God's creation in general.

Francis and Nolkilorit

The DTS (Discipleship Training School) has continually been making an impact in our lives. An impact in the lives of the graduates, church and the community as a whole. The school is continually whetting our appetites to have a hunger for God. To be truly passionate for God. The last six sessions of this school we had were all incredible. (Ashe Enkai) Thank you God.

Thank God with us because most of the graduates are becoming effective in their local churches as they work together with the leaders of the church. Some of these graduates have already been ordained to be pastors, church elders and deacons in their local churches. All this is to build up the body of Christ in discipleship and unification. Not only to accumulate ideas about God but to have a close relationship with Him. In our last DTS session we had nine students. We had a wonderful and a joyous time together in class and particularly in the outreach God marveled in it through many people received Jesus as Lord, many were healed and many were encouraged in their walk with Jesus to stand firm, Many families were prayed for by the DTS students at "Olorukoti Siria"

All in all we praise God! Be very much blessed.

Ole Yenko Francis + Nol + Yiamat.
